

OEM* and PAS125 Compliant Bumpers

Autoclimate Bumpers - A quality alternative

Why our bumper range is special in 5 easy steps:

1. Matching Quality

Autoclimate offer the **full range of Fiat and Alfa Romeo bumpers** (original equipment manufactured) along with an additional 70+ bumpers for car and 20+ light commercial bumpers.

All the bumpers that are non-OEM are **third-party accredited**, this ensures matching quality to the OEM equivalent

2. Selection Process

Autoclimate are committed to helping its customers by sourcing the **highest quality**, best value products, and its bumper range is no different.

Excluding Fiat and Alfa Romeo, Autoclimate do not supply OE branded bumpers. Due to the high

exacting standards of Autoclimate, a stringent selection process is carried out to ensure that the non-OEM bumpers being supplied are PAS125 compliant and of a very high quality.

3. Careful Steps

Vitaly important to Autoclimate is that its customers are using **PAS125 compliant parts**, a key factor for many accident repair centres, therefore Autoclimate will only supply bumpers that are PAS125 compliant.

Each and every supplier of bumpers to Autoclimate must be ISO 9001 accredited (as Autoclimate are), this gives us the guarantee that they have self monitoring mechanisms and strive to produce a **quality product** repeatedly.

“Minimum risk of incorrect parts being supplied”

4. Accreditation

For independent verification, bumpers sold by Autoclimate also hold **3rd party certification**, typically carried out by TUV. This ensures that any legal requirements are met, both new and old block exemption standards are checked. These steps make sure that bumpers supplied are compliant and of a high standard.

To finalise the process, Autoclimate checks the bumper against its OE counterpart and matches the part number. This minimises the risk of an incorrect part being supplied.

5. Unrivalled Customer Service

Each region of the UK is given a dedicated Customer Services Advisor who will handle your enquiry. By letting the advisor know what part you require, and the registration number of the vehicle, they will use **direct links to live DVLA data and SMMT data** to identify the correct part – Autoclimate achieves over **99% correct first time identification** on all parts.

Your part will then arrive with you via next working day delivery to a UK mainland address if the order is placed before 2pm.
